- Produced promotional displays, packaging and marketing collateral for retail environments.

Projects ([Figma File](#))

HOUSE (Real Estate Website) : Designed a comprehensive real estate website using Figma, developing wireframes and prototypes to map user journeys, focusing on creating an intuitive navigation system and visually appealing layout to attract potential buyers and sellers.

EMARK (Interactive Email Marketing Website) : Created a single-page interactive website for email marketing campaigns using Figma, designing engaging interactive elements and ensuring responsiveness across various devices.

KalaKaar (Sign-in & Sign-up Pages) : Designed sign-in and sign-up pages for an app targeting creative professionals using Figma, creating a simple yet effective design to enhance usability and conducting user testing to refine the flow and reduce user drop-off rates during registration.

Revolut Website Design Mockup : Recreated a website design mockup for a financial technology company using Figma, focusing on user engagement and accessibility by creating a clean and modern interface that highlights the company's financial products and services and ensuring the design is inclusive for a broad user base.
